## **KDR CAPITAL LAUNCHES DDART™ -** **A UNIQUE HEDGE FUND OPERATIONAL DUE DILIGENCE APPLICATION**

KDR Capital is pleased to launch **DDART™**, a robust and scalable web based software solution that offers hedge fund investors a best practice, standardised, secure and transparent due diligence review, verification and reporting application.

Benefits of **DDART™** include:

- ✓ **Verification of due diligence review directly with managers and counterparties**
- ✓ **Centralized database of DDQ universe with global 24/7 web based access**
- ✓ **Ensures completeness and standardization of DDQ data mitigating operational and audit risk**
- ✓ **Real-time DDQ query with managers to expedite decision making**
- ✓ **Assesses counterparty risks amongst entire DDQs or select universe**
- ✓ **Compares periodical DDQ's for consistency, updates and anomalies between funds and counterparties**
- ✓ **Customisable and flexible reporting based on due diligence universe**

**DDART™ is a unique system within the operational due diligence industry and compliments your existing ODD processes with seamless integration.**

Please contact KDR Capital at 1.647.273.2892 or email [info@kdrcapital.com](mailto:info@kdrcapital.com) for further information.
